Snapshot: December 2022

Published: September 2023

As with any traceability efforts, this is a snapshot that reflects our supply chain-mapping efforts, last updated in December 2022, which is a mix of self-declaration and verification, and should not be taken as fully exhaustive nor fully accurate as supply chain flows evolve on a daily basis. To the best of our knowledge, the information contained in this list is reliable; however, we do not assume any liability whatsoever for the accuracy and completeness of this information. Therefore, no rights can be derived from this list.

The processors' association with Tier 1 (i.e. "direct") suppliers does not indicate ownership of the processor by that Tier 1 supplier. The processor owner is indicated by the "Processor" column. The Tier 1 supplier relationship to the processor is through direct or indirect sourcing, except in the cases where the Processor is the same as the Direct Supplier.

We aim to share accurate and credible traceability data. Any stakeholder who may have any reliable data that is inconsistent with our own is invited to share it with us, so we can analyze it and make any necessary correction to our supply chain disclosure.
